

BGC-2000S

ADVANCED FILTRATION TECHNOLOGY

This Aquamor Foodservice brand water filter contains a polyphosphate scale inhibitor. The scale inhibitor reduces the accumulation of minerals that lead to hard water spots from lime scale build up on equipment.

This economical filter will provide you with months of protection by reducing hard water build up in any beverage or food equipment application.

Aquamor Foodservice filters have been tested by the manufacturer against ANSI/NSF Standard 42 for material requirements only.

REPLACES
