

BGH-3200S

REPLACEMENT CARTRIDGE FITS HOSHIZAKI* CARTRIDGE HEAD

Introducing the innovative Aquamor Foodservice water filters that are designed specifically for the beverage and food service industry. They provide a high performance yet economical alternative to expensive Hoshizaki* replacement filters.

Like competitive filters, these filters, of course, should not be used with water that is microbiologically unsafe or of unknown quality, without adequate disinfection before and/or after the filter. Aquamor Foodservice has been tested by the manufacturer against ANSI/NSF Standard 42 for material requirements only.

The inclusion of the Aquamor Foodservice products will comprehensively satisfy all of your beverage and food service requirements, and it will do so most cost effectively!
