

## BGX SLIMLINE SERIES

### ADVANCED FILTRATION TECHNOLOGY

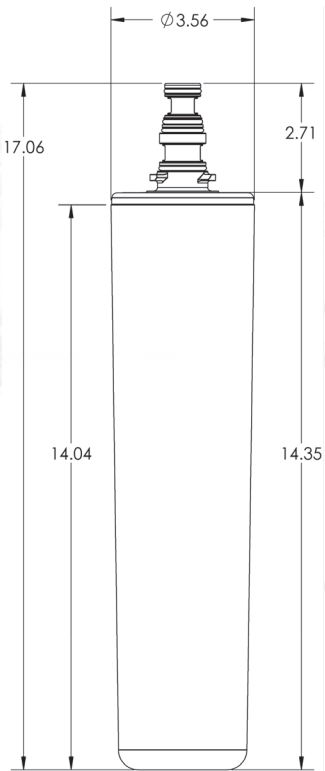

Aquamor is excited to announce the launch of our Aquamor Foodservice BGX line of water filters. Building upon the Aquamor Foodservice program of high-quality filtration, the Aquamor Foodservice BGX platform provides added depth and coverage to our food service and light commercial filtration offering. Proudly manufactured in USA, these NSF Certified filters provide superior scale control, extended capacity and exceptional dirt holding capability to ensure proper functionality of your equipment.

Trust in Aquamor's engineering and filtration expertise to ensure the equipment you use and the beverages you serve consistently provide superior performance and flavor quality.

- No Electrical Connection Required.
- Contaminants or other substances removed or reduced by this drinking water system are not necessarily in your water.
- Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts.
- EPA Establishment# 92705-CA-1.
- Replace cartridges when capacity is reached or when pressure falls below 10 psi.

# BGX SLIMLINE SERIES

## FILTER FEATURES

- Made in USA
- NSF Certified
- Extended chlorine taste and odor reduction performance
- Includes 0.2, 5.0 and 10.0 micron rated filters
- Patented scale control media provides superior scale protection for the life of the filter
- Made in USA specialty formulated carbon block provides exceptional capacity and dirt holding capability without plugging
- High flow, low pressure drop performance

## SPECIFICATIONS

<b>Operating Pressure:</b>	10-125 PSI
<b>Operating Temperature:</b>	35°F-100°F

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before and/or after the system.

MODEL	PART #	MICRON	CLAIMS	FLOW RATE GPM	CAPACITY GAL	CASE QTY	
BGX-2416P	105306	10	Sediment and Scale Reduction	3.0	12 Months	4	N/A
